

The Original Allergy Emergency Kit™ Non-Locking Inhaler Storage Wall Unit

If you love the Original Allergy Emergency Kit concept - this is a more affordable alternative if you do not need a locking cabinet. The combination of our Velcro backing and photo labeling system is an awesome way to store inhalers so that they are organized and self-containing of important student information.

- Velcro backing allows you to store 20+ inhalers using included perfectly-sized poly bags with Velcro attachment.
- A Microsoft Word template is provided for printing labels for each inhaler, including a photograph, medical condition details, expiration date, etc.
- Comes with an evacuation tote bag that perfectly fits the unit.
- An optional "field trip bag" is also available.
